

# YASH POKHARNA

Ahmedabad, Gujarat, India | 9460911881 | yashpokharna2002@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

## PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building enterprise and consumer-facing applications using React, Next.js, Angular, and Flutter. Skilled in TypeScript and JavaScript, with a strong command of REST API integration, component-based architecture, and modern, responsive UI/UX. Growing expertise in AI-powered application development, including automated data extraction and AI-driven insight generation. Known for collaborating effectively across cross-functional teams to deliver scalable, production-ready software in agile environments.

## TECHNICAL SKILLS

**Programming Languages:** Java, JavaScript, TypeScript, Dart

**Frontend:** React.js, Next.js, Angular, HTML, CSS, Tailwind CSS

**Backend:** Node.js, npm, REST API Integration

**Mobile:** Flutter, Dart, Material Design

**Databases:** PostgreSQL, pgAdmin

**Developer Tools:** Figma, Whimsical, GSAP, Postman, Azure Boards

**Version Control:** Git, GitHub

## PROFESSIONAL EXPERIENCE

### Jr. Consultant, WonderBotz - Ahmedabad

Nov 2025 - Present

- Develop and maintain internal enterprise web applications as a Full Stack Developer, working across the frontend stack and API layer.
- Build reusable, responsive UI components in collaboration with cross-functional teams to support scalable enterprise solutions.
- Integrate RESTful APIs and improve UI/UX across internal tools, strengthening frontend architecture and usability.
- Deliver features within an agile workflow, participating in sprint planning, development, and code reviews.

### Full Stack Developer, Twins Apparels - Bhilwara

Aug 2024 - Oct 2025

- Engineered a fully responsive textile factory website using Next.js and Tailwind CSS.
- Implemented GSAP scroll-triggered animations to create a modern, engaging user experience across the site.
- Deployed the application on a custom domain, optimizing for performance and accessibility.

## PROJECTS

### InspecTech - AI-Powered Field Inspection Application (Great American Group)

Mar 2026 - Present

Tablet-based inspection application streamlining field data workflows with AI-assisted analysis.

- Designed and developed a tablet-based UI using Flutter, Dart, and Material Design for real-world field inspection use.
- Explored AI-based data extraction from media to generate automated inspection insights, supporting faster field decisions.
- Built responsive, component-driven layouts optimized for tablet usage and on-site inspection workflows.

### EVAL NextGen - Auction Monitoring Web Application (Great American Group)

Nov 2025 - Mar 2026

Enterprise dashboard delivering real-time auction data visualization and monitoring.

- Designed and developed the complete dashboard UI using Angular, TypeScript, and Tailwind CSS.
- Integrated RESTful APIs to power real-time auction data visualization and monitoring.
- Architected reusable components and optimized frontend performance for a scalable user experience.

### Personal Portfolio

[Live](#) | [Source Code](#)

Personal branding site showcasing full stack projects and technical range.

- Built and deployed a personal portfolio using Next.js and Tailwind CSS, focused on performance and responsive design.
- Showcased multiple real-world projects with detailed tech stacks, GitHub integration, and live previews.
- Configured a custom domain with HTTPS, with subtle GSAP-based scroll animations across sections.

## EDUCATION

### Bachelor of Engineering, Computer Science and Engineering

2024

Chandigarh University - Mohali, Punjab | CGPA: 8.11

## ACHIEVEMENTS

- Earned a Letter of Recommendation from Professor Saikat Samantha, recognized as a Senior Software Developer.
- Recognized with an Award of Excellence in the AMCAT examination for logical and quantitative ability (4th semester).
- Solved 340+ data structures and algorithms problems on LeetCode using Java.

## CERTIFICATIONS

- Full Stack Web Development - UpSkillz
- Java Programming: Solving Problems with Software - Duke University (Coursera)
- Software Testing - NPTEL
